### About This Report

The Workforce Intelligence Network for Southeast Michigan (WIN) partnership is a collaboration of Michigan Works! Agencies (MWAs) and community colleges across a 16-county region in Michigan. The counties in the WIN partnership include: Genesee, Hillsdale, Huron, Jackson, Lapeer, Lenawee, Livingston, Macomb, Monroe, Oakland, Saint Clair, Sanilac, Shiawassee, Tuscola, Washtenaw, and Wayne, along with the City of Detroit.

This report highlights labor market information and real-time job posting data for the City of Detroit. A workforce overview is provided within identifying key components of the area's labor market including labor force status, demographic, and commuting data. WIN's analysis of on-line job postings, a proxy for employer demand, is a pioneering method for tracking the health of the labor market. This data is used to provide a real-time demand overview, detailing posting related findings for both employers and job seekers. WIN's data and research team analyzes job posting data at the occupation level within eleven customized occupation groups built using specific Standard Occupational Classification (SOC) codes to provide more contextualized information. Occupation groups combine data for jobs with similar skillsets, educational attainment, and experience requirements, which provides a more in-depth snapshot of the current labor market when compared to traditional industry data based upon North American Industry Classification System (NAICS) codes. Occupation outlook sections utilize these metrics to identify and display the top in-demand jobs, their entry requirements, and their earning potential.

WIN produces a 16-county region report quarterly using data from all eleven occupation groups. A report focused on the city of Detroit is also produced quarterly, focusing on five occupation groups related to Detroit's labor market. County reports are produced annually and focus on five occupation groups chosen to reflect the labor market specific to the county.

This report analyzes data from the third quarter of 2020 in the City of Detroit and includes comparison analysis to the second quarter of 2020. For the City of Detroit, the business and finance, energy, health care, information technology, and skilled trades and technician's occupation groups are analyzed.

For more information pertaining to the labor market in southeast Michigan, the custom occupation groups within this report, or any other workforce-related data projects, please visit [www.WINintelligence.org](http://www.WINintelligence.org) or contact the data and research team directly at [research@WINintelligence.org](mailto:research@WINintelligence.org). For more information about jobseeker resources and our partners, please visit [www.micareertraining.org](http://www.micareertraining.org).

### State of the Labor Market in the City of Detroit

During the third quarter of 2020, the labor force numbers in the City of Detroit decreased, while the employment figures grew. The COVID-19 crisis has caused major shifts in the labor market this quarter. Monthly postings data has continued to show hiring shifts and skills demanded, as the region starts to recover. The large increase in employment and the drop in unemployed individuals caused this quarter's unemployment rate to decrease by 16.0 percentage points, for a Q3 2020 unemployment rate of 20.5 percent. Employer demand grew for half of the occupation groups analyzed during Q3, though some groups declined more than others. Business and Finance, Information Technology, and Skilled Trades occupations saw the greatest impact, with all experiencing a growth in employer demand since Q2 2020.

### Annual Labor Market Information

The labor force in Detroit has grown since annual 2019, increasing by 8,098 individuals for a September 2020 year-to-date (YTD) labor force figure of 260,065 individuals. Unemployment figures dramatically increased this quarter, almost triple the number of workers than 2019. As recovery from the COVID-19 pandemic continues, major swings in employment are anticipated.

Annual Labor Force, Employment, Unemployment Rate  
2010–2020

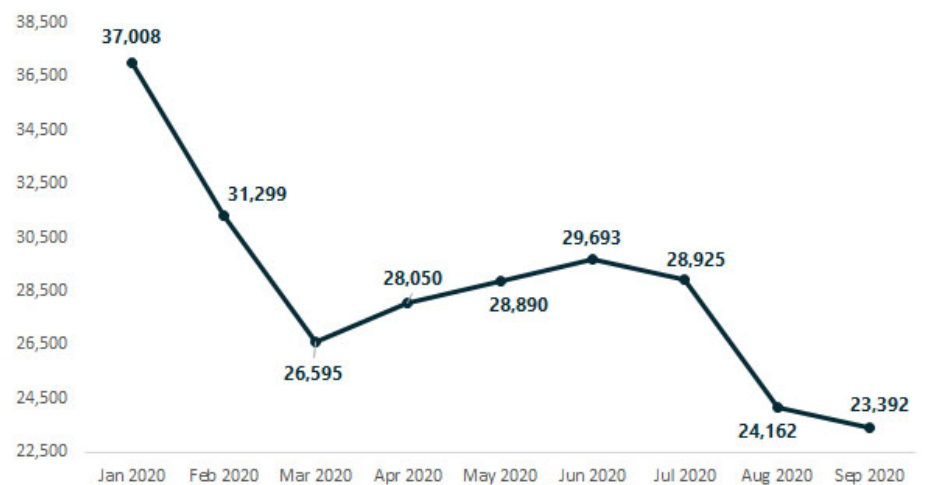

Data: BLS | Analysis: Workforce Intelligence Network

### Quarterly Employer Demand Overview

Employer demand in Detroit has declined. During Q3, demand for workers were down by 316 postings or 0.7 percent since Q2 2020. Postings are still down from Q3 2019, which had 79,480 postings, a decrease of 33,237 postings (41.8 percent). Despite the decrease in the labor force this quarter, the unemployment rate also declined since Q2 2020, by 16.0 percentage points, for a Q3 2020 quarterly unemployment rate of 20.5 percent.

Monthly Posting Analysis, Detroit  
Q3 2019–Q3 2020

Data: Emsi | Analysis: Workforce Intelligence Network

### Employer demand declines by 0.7 percent, a loss of 316 job postings since Q2 2020.

During Q3 2020, there were 46,243 job postings, 316 less than the 46,559 postings made during Q2 2020 in the city of Detroit. There are 33,237 (41.8 percent) less postings in Q3 2020 than in Q3 2019. Energy employers posted 29.0 percent less postings in Q3 2020, while Business and Finance demand increased by 33.6 percent this quarter. The top posted job titles this quarter include CDL-A Truck Drivers, ICU Registered Nurses, Emergency Room Travel Registered Nurses, Medical Surgical Registered Nurses, and Travel Registered Nurses. For more information about quarterly job postings, see page 8.

### Employer Demand Percent Change Since Q2 2020

### Job postings made by employers in the city of Detroit indicate a bachelor's degree remains the most in-demand minimum education level during Q3 2020.

Of the 46,243 unique postings in the city of Detroit during Q3 2020, 14,729 (31.9 percent) required a college degree. An additional 4,665 postings (10.1 percent) required an advanced degree. The high demand for business and finance and information technology roles within the city, drives this high demand for college education.

### Education Levels In-Demand Q2 2020

### Monthly Employment Changes

Note: Monthly data averaged by quarter | Data: Bureau of Labor Statistics

### Employment in the City of Detroit decreased in Q2 2020 by 60,493 workers.

Following growth fluctuations in the labor force through Q3 2020, participation decreased by 8,778 individuals for a Q3 labor force figure of 259,330. During Q3 2020, employment grew by 35,849 individuals, an increase of 21.1 percent since Q2 2020. Despite the loss in the labor force during Q3 2020, the unemployment rate dropped by 16.0 percentage points for an overall Q3 unemployment rate of 20.5 percent. Monthly posting data indicates a decline starting in July carrying thorough September, which is typical for the market during this time, however as the pandemic continues, employer demand will continue to be monitored quarterly. For more information about this year's unemployment rate and other labor market indicators, see page 4.

### Labor Force, Employment, and Unemployment

The labor force in the city of Detroit has been growing steadily year over year since 2015, though there is still fluctuation between quarters since 2010, despite COVID-19, the YTD 2020 figure has continued to show growth. The 2020 YTD labor force recorded an increase of 8,098 individuals from 251,966 individuals in 2019 to 260,065 individuals in 2020 YTD, or 3.2 percent. Employment in Detroit has been on the rise since 2011, although employment YTD shows a decrease of 27,830 workers or a 12.1 percent decrease from annual 2019 figures. Meanwhile, the number of unemployed individuals for the city of Detroit grew by 35,928 workers, or 164.8 percent, between 2019 and YTD 2020. The unemployment rate dramatically increased by 13.5 percentage points, leading to a 2020 YTD unemployment rate of 22.2 percent.

### Labor Market Demographics

During 2018, the most recent census year, there were about 526,251 people in the labor force, either working or looking for work, in the city of Detroit. Resident employment in the city totals 234,658 workers or just under half, 44.6 percent, of the total labor force in Detroit. The highest unemployment rates in 2018 were seen in those aged 24 years old or younger, accounting for an unemployment rate of 70.4 percent for males and 64.3 percent for females. Overall, males in the city of Detroit have a higher unemployment rate than females, with 19.0 percent and 15.8 percent respectively, for 2018. Black or African American job seekers have a difficult time finding employment, facing an unemployment rate of 19.3 percent. Native American job seekers also face difficulty, with an unemployment rate of 17.8 percent.

### Regional Commuting Patterns

According to the most recent OnTheMap data set available from the Census Bureau, during 2017, the city's workforce consisted of 185,841 residents. 57,743 (31.1 percent) of the residents lived and worked within Detroit's city limits, while the remaining 128,098 residents (68.9 percent) traveled outside of the region for work. There were 219,968 workers employed in the city during 2017. Of those, 162,225 workers (68.9 percent) lived outside of the city's borders and commuted in. Thus, Detroit is a net importer of jobs, with more workers commuting into the area for employment than leaving. However, the city has a much higher percentage of both inbound and outbound commuters than many areas.

### Business and Finance Education and Experience

The business and finance occupation group offer great job opportunities for active job seekers. A bachelor's degree is the most in-demand education level in Q3 2020, required in 3,840 postings. A master's degree is the second most in-demand education level with 1,092 postings, while 2,786 postings do not specify any education level. Many business and finance occupation postings were open to workers with two to three years of experience, included in 1,758 postings. Workers with four to six years of experience are also heavily in-demand with 1,238 postings. Although 2,879 postings do not request any specific experience level, 843 postings requested workers with zero to one year of experience.

### Business and Finance Top Posted Jobs Q3 2020

### Top Posted Jobs: Q3 2020

Sales Managers were the highest in-demand business and finance occupation during Q3 2020, with 877 postings, followed by Accountants and Auditors with 661 postings, both requiring a bachelor's degree. While most of the top jobs typically require a bachelor's degree, Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products (364 postings), and Insurance Sales Agents (278 postings), only require a high school diploma and no work experience, coupled with moderate-term on-the-job training.

### Business and Finance Wage Overview

Most business and finance related jobs offer high wages, making for a lucrative opportunity for job seekers willing to attain the necessary education. The top posted business and finance job, Sales Managers, offers median hourly wages of \$69.02, translating to annual earnings of approximately \$143,562. Additional experience may lead to a role as a Marketing or Financial Manager, opening the door to median wages around \$65.52 hourly, or about \$136,282 annually. Entry level occupations also see high median wages of \$33.52, earning about \$69,722 annually.

### Introduction

Energy-related occupations encompass jobs in engineering, science, mining, and extraction. Workers in this field have a range of skills all related to keeping businesses and homes powered. Energy companies employ workers in a variety of occupations, many of which are also included in other WIN occupation groups. Data referenced in this section pertain only to job postings from energy-related businesses.

**14,828**  
**Energy Workers**  
0.6% Increase from 2019

**Employment Over Time**  
2001–2020

### Energy Education and Experience

The energy occupation group is critical to the energy industry, requiring a specialized workforce with specific skills. A bachelor's degree is the most in-demand education level in Q3 2020, with 30 postings (61.2 percent). A high school diploma is the second most in-demand education level with 11 postings (22.4 percent), while 8 postings does not specify any education level. Many energy occupation postings were open to workers with four to six years of experience, included in 14 postings. Workers with two to three years of experience are also heavily in-demand, with 11 postings. Although 15 posting do not request any specific experience level, four postings requested workers with zero to one year of experience.

## Energy Wage Overview

The high demand for engineers and managers in the energy field creates lucrative opportunities for job seekers willing to obtain the additional educational necessary for these jobs. The top posted energy job, Electrical Engineers, offers a median hourly wage of \$44.43, or annual earnings of approximately \$92,414. Construction and technician focused positions generally have shorter educational requirements than engineers and pay higher median wages than similar occupations in other industries.

2001–2020

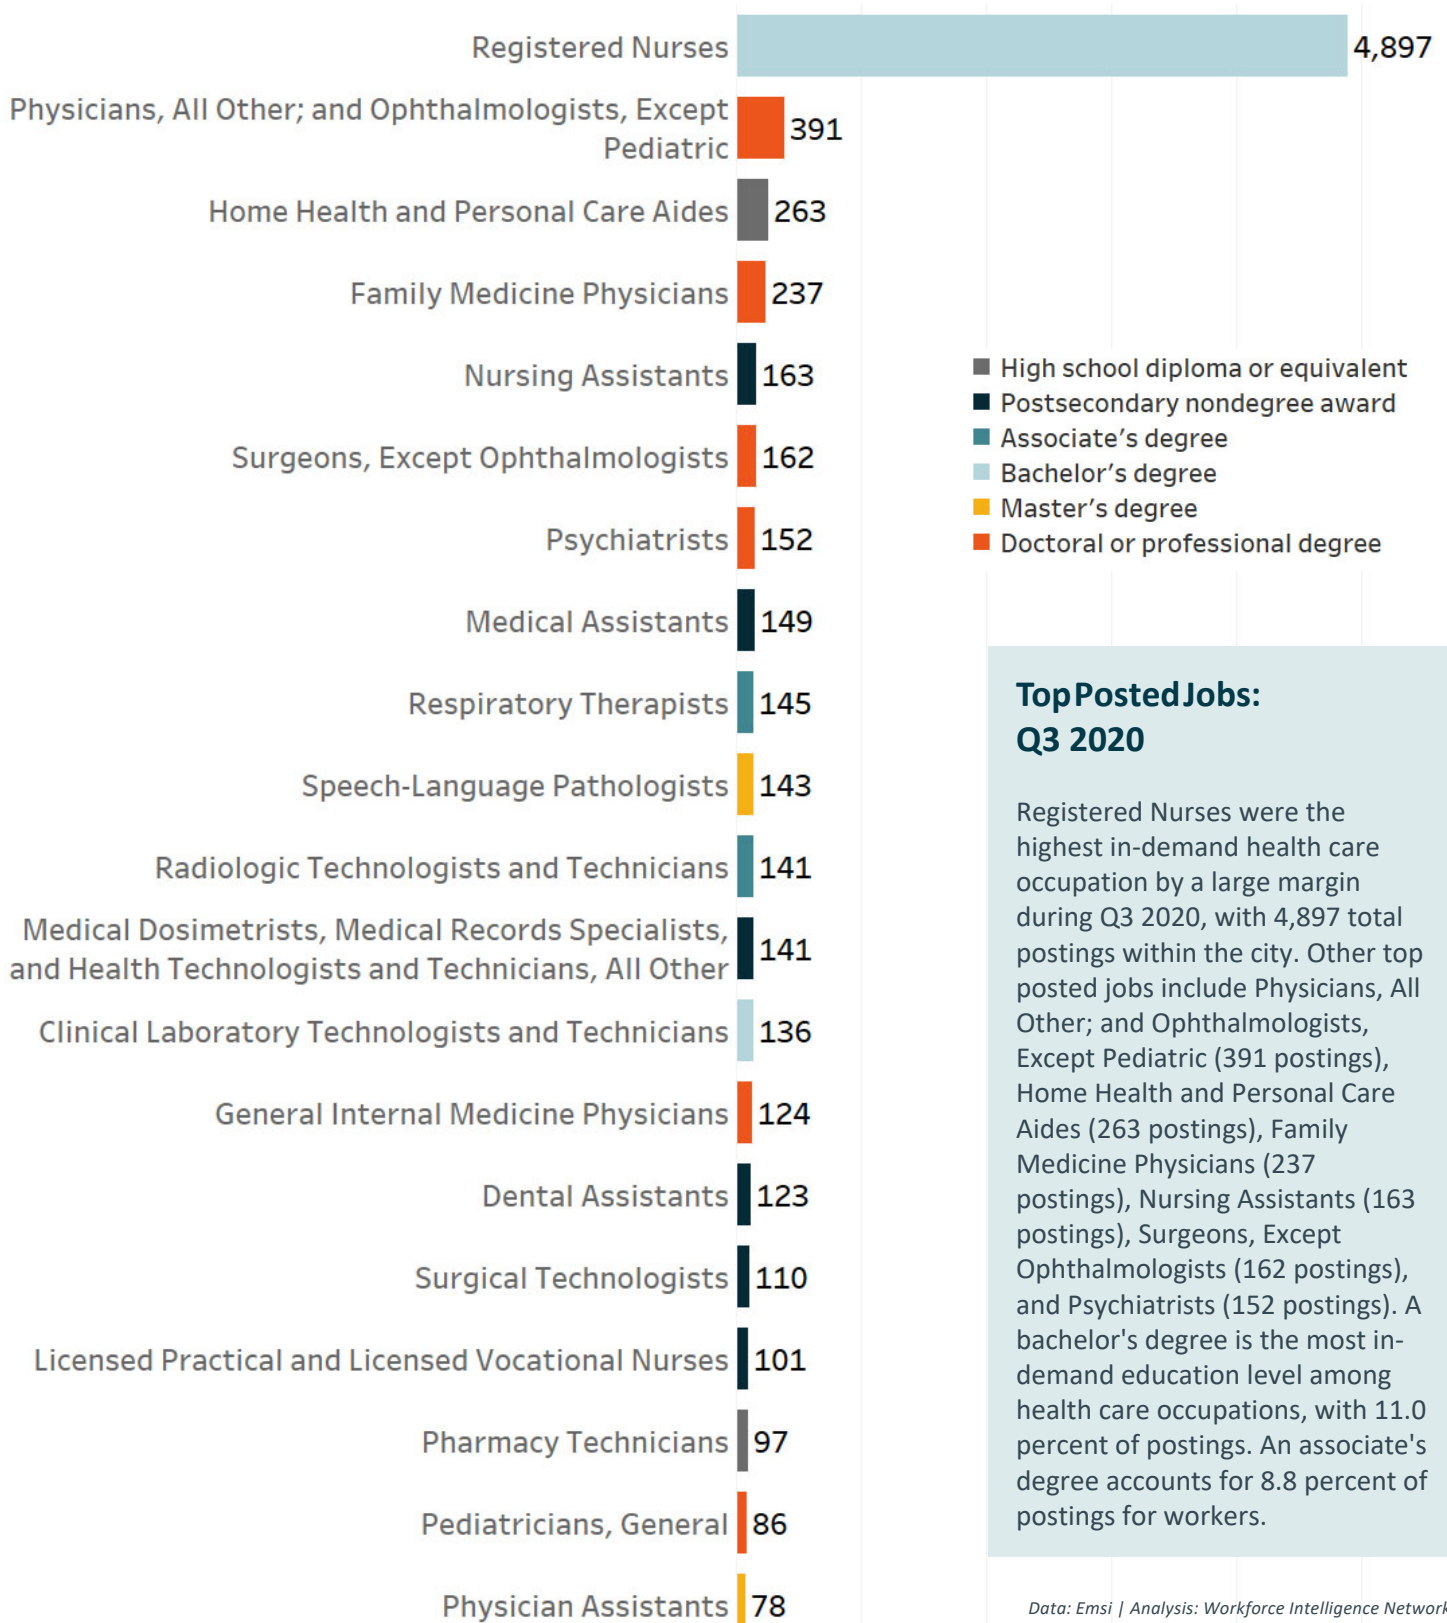

### Health Care Education and Experience

The health care occupation group offers great job opportunities for active job seekers at all experience levels. A bachelor's degree is the most in-demand education level in Q3 2020, with 949 postings. An associate's degree is the second most in-demand education level with 763 postings, while 6,279 postings did not specify any education level. Many health care occupation postings were open to workers with two to three years of experience, included in 2,574 postings. Workers with zero to one year of experience are also heavily in-demand with 1,359 postings, while 4,587 posting do not require any specific experience level.

### Health Care Top Posted Jobs Q3 2020

### Top Posted Jobs: Q3 2020

Registered Nurses were the highest in-demand health care occupation by a large margin during Q3 2020, with 4,897 total postings within the city. Other top posted jobs include Physicians, All Other; and Ophthalmologists, Except Pediatric (391 postings), Home Health and Personal Care Aides (263 postings), Family Medicine Physicians (237 postings), Nursing Assistants (163 postings), Surgeons, Except Ophthalmologists (162 postings), and Psychiatrists (152 postings). A bachelor's degree is the most in-demand education level among health care occupations, with 11.0 percent of postings. An associate's degree accounts for 8.8 percent of postings for workers.

### Health Care Wage Overview

Wages in health care are generally on the higher end of the pay scale with education, training, and experience being needed for most top jobs. Although this group offers a broad array of occupations requiring higher education, there are several jobs open to those with a high school diploma or equivalent or a postsecondary nondegree award, that pay more than the state's median wage of \$18.60 per hour. Registered Nurses, the top posted health care job in Q3 2020, offers a median hourly wage of \$37.19 or an annual salary of nearly \$77,355.

#### Wage Overview for Top Posted Health Care Jobs in Q3 2020

### Introduction

WIN's technicians/skilled trades category includes jobs related to advanced manufacturing. Southeast Michigan has more demand for skilled- trades labor, such as CNC machinists and welders, than almost anywhere else in the country.

NOTE: Skilled trades related to construction and assembly are not included in this cluster, as the focus is on advanced manufacturing only.
